Porsche Owners Club (POC) has it all

The tracks, the instructors and the experience to show you how to safely get more from you and your Porsche. At the same time you will enjoy the comradarie of fellow enthusiasts who love to drive and race, as well as give something back. POC "off-track" events include open houses, tech sessions, parties and our Annual Charity event. We drive hard and play hard too!

So, now you own one!

What's next?

as if we didn't know!

PORSCHE OWNERS CLUB

We've been arranging love affairs between people and Porsches for over 50 years!

The Porsche Owners Club has programs to take you as far as you want to go with your car!

The POC Performance Driving Series (PDS) *is our entry level series where you can compete for fastest lap times. No banging or bumping, just you and your car against the clock with continuous timed lapping.*

The POC Time Trial Series (TT) *is the next step. Visit tracks all over California and beyond. Take your skills to an even higher level with continuous timed lapping.*

The POC Cup Racing Series *is wheel to wheel racing on these same tracks. Compete against drivers with similar skills and equipment.*

DRIVING SCHOOLS

POC sponsored one day driving schools are held periodically at major race tracks, affording our club members an opportunity to acquire in-car instruction and plenty of on-track practice time in a noncompetitive environment. Classes include classroom discussion, track walks and lecture as well as in-car driving instruction.

PERFORMANCE DRIVING SERIES (PDS)

The POC PDS offers club members the opportunity to learn the performance limits of their car in a safe, legal, controlled environment. One and two day events are conducted on major race tracks specifically designed for performance driving. Continuous timed lapping using our AMB Timing System allows the drivers to monitor their progress while exploring their understanding of smooth driving lines and car control abilities. A relaxed atmosphere, with experienced instruction available and lots of track time make these events very popular.

For those who wish to compete in timed laps against others in the same class, this also serves as a Championship Series with year-end awards for a variety of class winners. Bring your car, we have a place for you to run and a trophy to win.

TIME TRIAL SERIES (TT)

The next step up from our PDS. Time Trial events usually last two days, and are hosted at major race tracks such as Willow Springs International, Auto Club Speedway, Laguna Seca, and others. Time Trials allow our members to explore and experience the limits of their car and driving skills at higher performance speeds. Due to the skill level required for these events, a PDS license must first be obtained before entering the Time Trial student program. After successfully completing two full Time Trial events as a student, a Time Trial license may be issued (No additional cost for instruction.)

Once drivers are licensed for Time Trials, they may participate in all Time Trial events and compete for Class Championship awards by racing against the clock for fastest lap times against other drivers in their same class.

CUP/GT RACING SERIES

The pinnacle of competition in the POC is our Cup Racing Series. Although characterized by its highly competitive wheel-to-wheel action, the Cup Racing Series follows the standard of "gentlemen racing" 13/13 non-contact sportsmanship.

Tiered in a competitive class structure, the POC Cup Racing series has room to compete in classes ranging from the most radical tube chassis prototypes to relatively stock 4-cylinder street cars. This is a Championship series with year-end awards.
